

Campbell Brothers Limited operates throughout Australia, New Zealand, Asia, North & South America, the Pacific and Africa. Our principal business divisions are:

> **LABORATORY SERVICES**

A world leader in analytical laboratory services in the environmental, minerals and oil markets with additional technical services provided in the areas of food, microbiology, electronics, ecotoxicology, occupational health and air quality.

> **CONSUMER**

This division incorporates four business units covering a wide range of consumer products and services. It is the largest Australian-owned manufacturer and distributor of household laundry and cleansing products, offers technically advanced sales and marketing systems to grocery manufacturers and retailers, operates in the home services market, and distributes consumer and industrial goods throughout the South Pacific.

> **INDUSTRIAL**

Incorporates leading businesses involved in the importation, manufacture and distribution of chemical cleaning products, the provision of engineering system services, water treatment technologies and the distribution of non-food consumables. The division's major markets include healthcare, hospitality, food and beverage processing, commercial cleaning and agriculture.
